

EXCHANGE PERIOD EXTENSION

Instructions

1. - Read this form carefully, complete it and request the host university representative's signature and seal. It must be said that one of the requisites for the extension to be granted is that the number of student placements that the host university sends to PUCP is not affected.
2. - Send the complete form to your academic coordinator at PUCP for approval, signature and seal. This will confirm that you have in fact credit courses to be transfer and therefore you may extend your exchange period.
3. - Send the form to the Office of Student Mobility (promydes@pucp.edu.pe) before February 10th for Spring semester extension or before June 10th for Fall semester extension.

Important: The extension is only available for one additional semester, this means that PUCP students may study abroad for a maximum period of 2 consecutive semesters, after which they must return to PUCP and continue their studies.
